###Section 6 – License.

A. License Grant. Subject to the terms and conditions of this License, Licensor hereby grants Licensee a worldwide, perpetual, royalty-free, non-exclusive license to:

  1. install the Licensed Programs on Licensee's premises, and permit Licensee's users to use the Licensed Programs so installed, solely for Licensee's own development, testing, demonstration, staging, and

production of Licensee's own software that makes use of the Licensed Programs in a way that adds substantial functionality not present in the Licensed Programs (the result, a "Licensee Application");

2. permit Licensee to permit third-party hosts ("Hosts") to install the Licensee Application on such Hosts' respective premises on Licensee's behalf, and permit Licensee's users to access and use the Licensed Programs so installed, solely for Licensee's own development, testing, demonstration, staging and production purposes

3. install the Licensee Application on Licensee's own premises and permit its own users to use the Licensee Application so installed on the same terms as sub-sections (i) and (ii) above.

B. For the purposes of this License, the right to "use" the Licensed Programs shall include the right to utilize, run, access, store, copy, test or display the Licensed Programs. No right or license is granted or agreed to be granted to disassemble or decompile any Licensed Programs furnished in object code form, and Licensee agrees not to engage in any such conduct unless permitted by law. Reverse engineering of Licensed Programs provided in object code form is prohibited, unless such a right is explicitly granted by any explicit license subject to sub-section (d) below or as a matter of law, and then only to the extent explicitly permitted. Licensor shall have no obligation to support any such reverse engineering, any product or derivative of such reverse engineering, or any use of the Licensed Programs with any modified versions of any of their components under this License.

C. Licensee shall ensure that any Licensee Applications incorporate the Licensed Programs in such a way as to prevent third parties (other than Hosts) from viewing the code of the Licensed Programs or gaining access to any programmatic interface or other hidden aspect of the Licensed Programs. Licensee shall also restrict distribution of the Licensed Programs, including as part of Licensee Applications, to only those parties who are notified of, and subject to, an enforceable obligation to refrain from any of the prohibited activities listed herein, such as reverse engineering or disassembling the Licensed Programs.

D. Use of some open source and third party software applications or components included in or accessed through the Licensed Programs may be subject to other terms and conditions found in a separate license agreement, terms of use or "Notice" file located at the download page. The Licensed Programs are accompanied by additional software components solely to enable the Licensed Programs to operate as designed. Licensee is not permitted to use such additional software independently of the Licensed Programs unless Licensee secures a separate license for use from the named vendor. Do not use any third party code unless you agree with the applicable license terms for that code.

E. Title. Title to and ownership of the Licensed Programs shall at all times remain with Licensor.

###Section 7 – Termination.

A) The Licensor reserves the right to cease distribution and grant of further licenses to any or all of the Licensed Programs at any time in its sole discretion.

B) The Licensor reserves the right to at any time and at its sole discretion provide updated versions of any or all of the Licensed Programs that supercede and replace the prior version of that Licensed Program.

C) Your license rights under Section 6 are effective until terminated as described below:

D) Upon any expiration or termination of this License, the rights and licenses granted to you under this License shall immediately terminate, and you shall immediately cease using and delete the Licensed Programs. Licensee Applications based upon the Licensed Programs (see Section 6(a) above) are not subject to this limitation.

In the event of any expiration or termination of this Licensee, any Confidentiality provision, disclaimers of GE's representations and warranties, choice of applicable law and limitations of GE's liability shall survive.

Section 8 – Applicable Law.
The License shall be governed by and interpreted in accordance with the substantive law of the State of California, U.S.A., excluding its conflicts of law provisions, and by the courts of that state.
